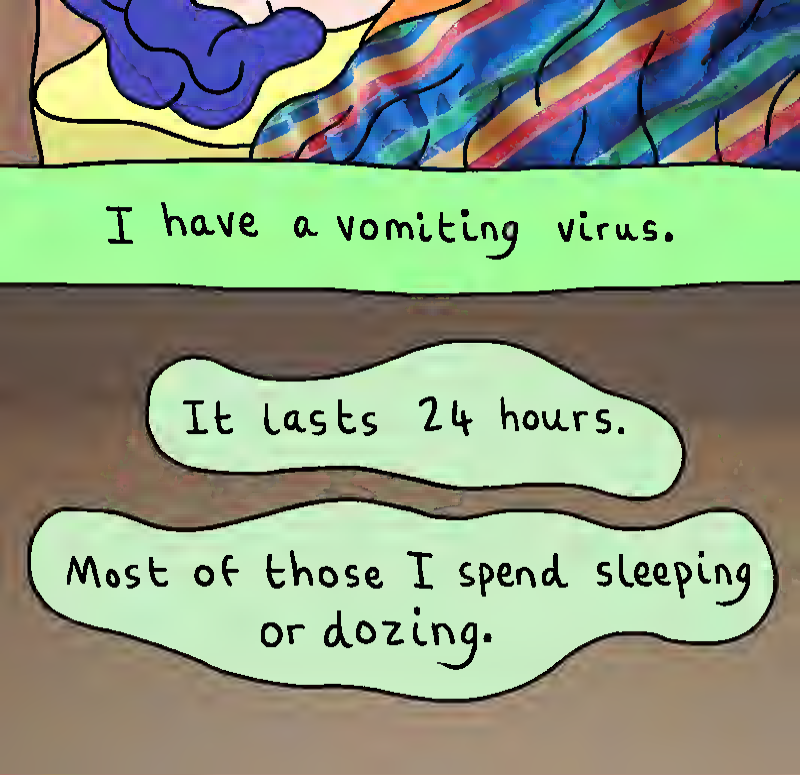
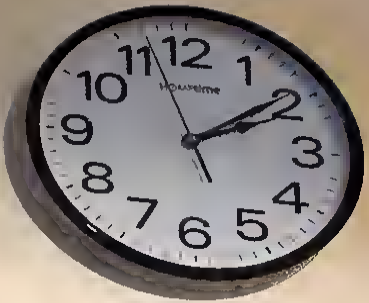
hello
illness...

I can't go outside today.

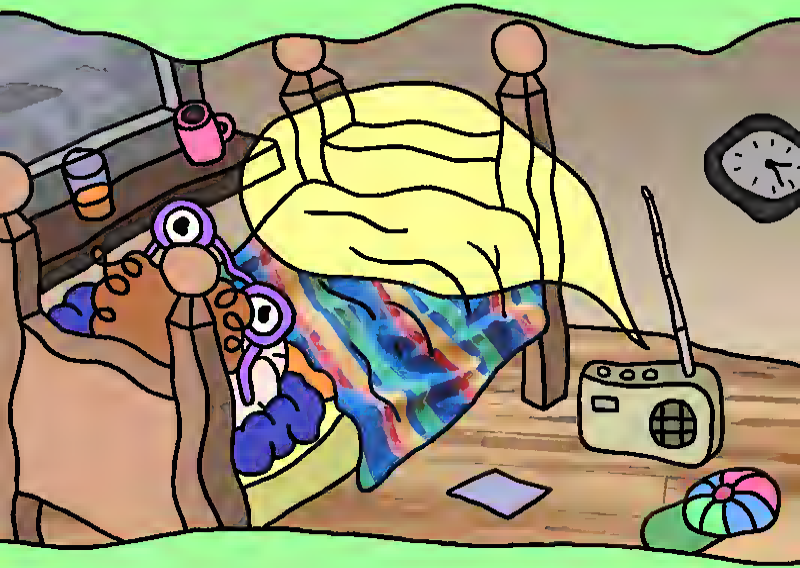


I have a vomiting virus.
It lasts 24 hours.
Most of those I spend sleeping or dozing.



I stare at the clock.

I am weak and feverish.



The radio is on most of the day.

the radio

stories enter my fever dreams

There was a story about an arctic adventurer.

For a while I was in a vivid world

and then
I woke up
feeling
wobbly

again.
